

General Conventions:

Signal names beginning with a '/' are active low

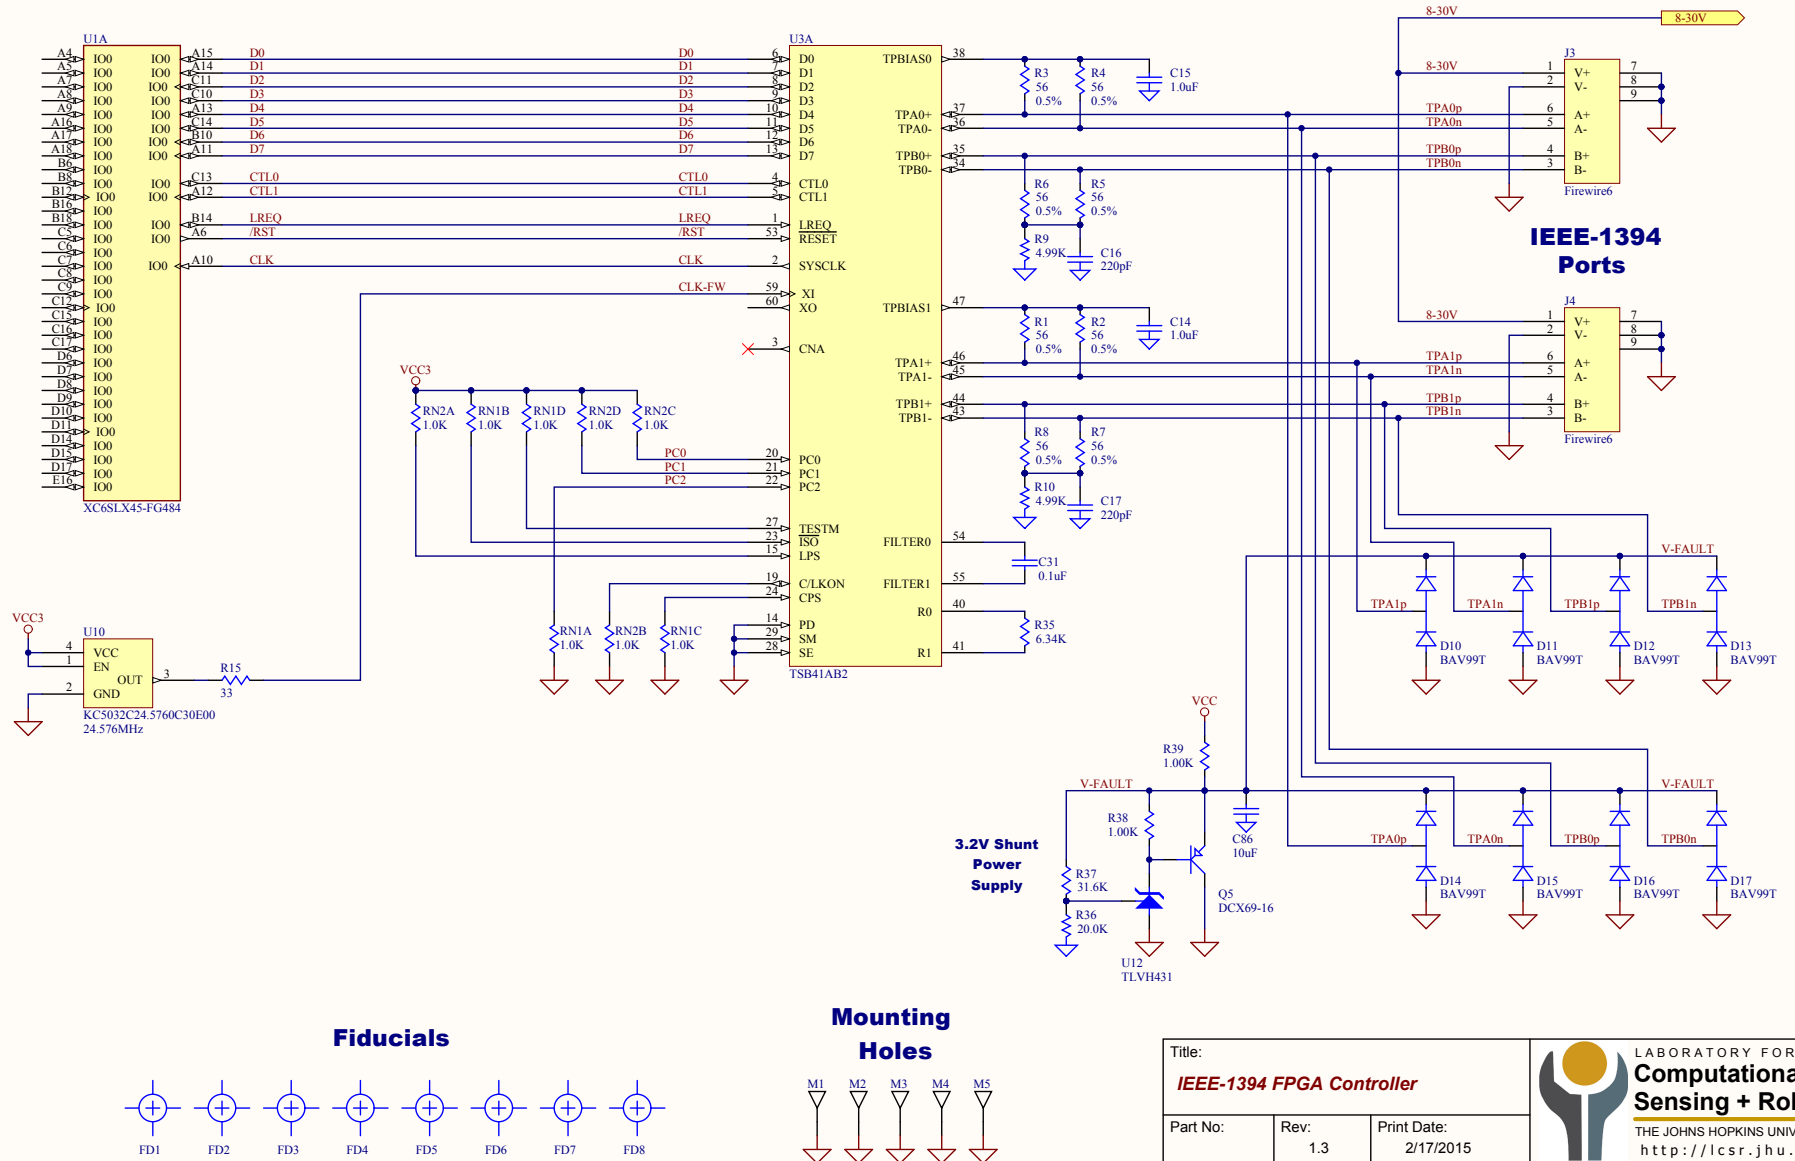

Unless Specified Otherwise:

- All resistors are 1% metal film, 1/10W, in 0603 package**
- All non-polarized capacitors are ceramic, in 0603 package**
- All ceramic capacitors up to and including 1,000pF are NPO, 50V or higher, 5% or better**
- All ceramic capacitors over 1,000pF up to and including 1.0uF are X7R, 16V or higher, 10% or better**
- All ceramic capacitors over 1.0uF are of the specified type and voltage**
- All polarized capacitors are of the specified type and voltage**
